

To Narita City and All of You in the Future

When you

- Have fun learning
- Value your friends and differences
- Think about your own future

You are shaping the future
of Narita City and all of us.

Let's work together to build a better Narita City!

Narita City will carry out
its plan while valuing
everyone's feelings. Una.

Narita City

What Matters to Narita City

Here's what we want to achieve over the next 10 years!

Our Vision for the City

Narita

A city where everyone can be themselves, learning together and thriving together into the future

It's okay to be different.
We want to help everyone develop their strengths, learn together with friends and community members, and contribute to society. Una.

Do you know what well-being is?

1

Good morning!
It's school again today!

2

This is really fun!

I feel safe and at ease when someone really listens to me.

3

Whoa, you startled me...

Feeling that school is fun and you are safe and at ease is also part of "well-being." Una.

4

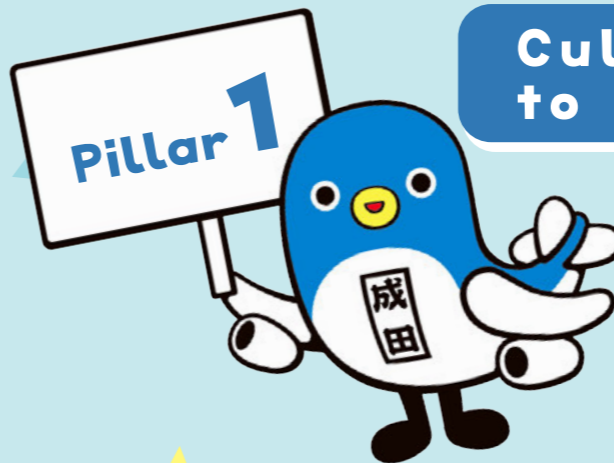

I see!

Narita City's plan values being physically and mentally healthy and satisfied with your everyday life. Una.

So those are the important keywords!

The Three Pillars of Education for Tomorrow

Narita City is advancing education based on the following three pillars.

Cultivating the Skills to Thrive in the Future

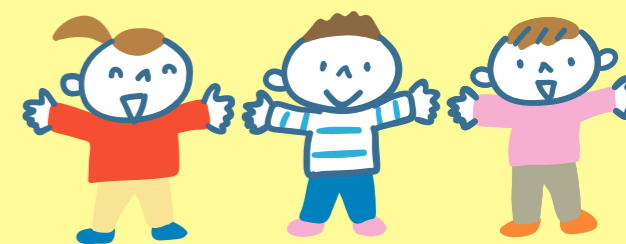

We will cultivate the skills essential for society in the future, such as critical thinking, taking on challenges, and compassion.

POINT

How will learning at school change?

Learning that values each student

- Everyone has their own strengths and weaknesses
- We value learning methods tailored to each student.

Valuing healthy minds and bodies

- A mindset that values life and other people
- The ability to follow rules
- Building a healthy body

Creating an Environment that Makes Learning Easy

Pillar 2

We will build safe and secure schools so that everyone can enjoy school life. We will also value the time teachers spend engaging with the children.

POINT

A system that makes you feel at ease even when you're struggling

Not leaving anyone behind

- ✓ When it's hard to go to school
- ✓ When you're struggling with your studies
- ✓ When there are language or cultural differences

We've established a system where you can ask for advice and get help even in these situations.

A place to talk with peace of mind

- ✓ There are adults like teachers and school counselors who will listen to you.

Together with the community

- ✓ Schools, families, and the community work together to help children.

Creating a City Where You Can Learn Anytime

Pillar 3

We will increase opportunities for both children and adults to learn outside of school and ensure they can apply what they have learned.

POINT

Learning goes beyond school walls

Outside of school

- ✓ Learning isn't limited to the classroom
- ✓ Experience diverse activities in the community
- ✓ Meet all kinds of people

In Narita City, we help everyone learn new things and take on challenges.

About the Children's Slogan

When we created this plan, we asked everyone to come up with a children's slogan.

Let me be me,
let you be you,
and let's spread our wings together
into the future!

Think. Write.

Self-Discovery Worksheet

Let's learn about ourselves!
It's okay to be different – everyone has their own strengths

 What are your “likes” and “important things”?
Find them and write them down!
It's okay to be different from your friends! 

Notebook for Spreading Our Wings Together into the Future

Let's spread our wings together into the future!
Shaping our futures together

 What future do you want to create, and with who?
It's okay to do it alone or with friends.
Think about it! 

All kinds of ideas
will lead to the future ahead!
Una.
